Nadir Tareen

ABOUT

I am a junior, majoring in Human-Centered Design and Engineering. I hope to specialize in Human-Computer Interaction. I am interested in gaining experience in UX & UI Design, Web Development, and Usability Testing.

EXPERIENCE

University of Washington HCDE Department
Course Assistant - 09/2019 - Present

Currently employed as a course assistant for the introductory design course (210) of the HCDE department. I give qualitative feedback on design principles, ethics and responsibilities to a section of 25 students through grading their assignments and assisting them with in-class design sprints.

University of Washington Foster School of Business
Undergraduate Research Assistant - 02/2019 - 09/2019

I was a paid research assistant on a team of students researching the workplace climate of the Seattle Fire Department under Professor Umphress of the Foster Business School's Department of Management and Organization. My work involved conducting an extensive literature review and creating a Qualtrics survey.

University of Washington HCDE Directed Research
Student Researcher - 10/2018 - 12/2018

I worked on a team of student researchers alongside the Human-Centered Design and Engineering department a the University of Washington with the goal of designing reflective tools to promote resilience against misinformation on social media.

GrayScale - Karachi, Pakistan
Intern - 02/2017 - 05/2017

I was a paid intern at GrayScale; a vertically integrated, full-service film, television, and media production house. My work included capturing and editing stock footage and assisting in the production of promotional films for various charitable organizations in Pakistan.

EDUCATION

University of Washington - Seattle
Bachelor of Science in Human-Centered Design and Engineering - 08/2017 - Present

Cumulative GPA: 3.53

2018, 2019 Dean's List for Winter, Spring and Autumn Quarters.

SPECIALTIES
